All she wanted to do was to spend a quiet summer vacation with her friends after a difficult first year in middle-school and the recent unsolved disappearance of her baby brother. The dynamics Molly faced were much different this year. Her friends were close to her, but her enemies were now closer. Suddenly, she had something they wanted, and it wasn't exactly her new crush, Thom Talbot. One day, while exploring the local caves in Pacific, Missouri, she connects with mysterious beings who have been hidden from mankind for centuries. Through them, she discovers clues to her brother's disappearance as she desperately tries to locate him. In doing so, she is unexpectedly launched on an incredible journey of local myth, magic, and monsters. (Volume 1: The Waters).
