Pub Date: 2009 Publisher: Harbin Institute of Technology Press If you have any questions, please contact the owner! Basic Information Title: Introduction to Functional Materials List Price: 30.00 yuan Author: Xia Ming Press: Harbin Institute of Technology Press Publication Date: August 2009 ISBN: 9787560313849 word count: 405.000 yards: Revision: Binding: Paperback: 16 Item ID: 1230034 Edit recommend the development direction of the cross-frontier on behalf of the materials in the field of fusion related disciplines; the progressiveness scientific experts. academicians write books to reflect the latest achievements of materials science; readability acquaintance sexual content rich and informative material engineering practice. Abstract book consists of five parts. The first part is the scientific basis of the functional material. including crystallography basis and material properties. polymer base; second part is a metal functional materials. including a superconducting material. the hydrogen storage alloy. a shape memory alloy. amorphous alloy. a magnetic material; The third part is inorganic non-metallic functional materials. including semiconductor materials. microelectronic device materials. optical materials. fine functional ceramics. nanomaterials. functional conversion material; fourth part of the functional polymer materials. including polymer reagents and solid-phase synthesis polymer catalyst immobilized enzyme and polymer integration agent. photosensitive conductive polymer materials; fifth part is the low-dimensional functional materials. including functional thin film materials. new functional materials. The book can be used as the colleges of materials science undergraduate textbooks. and also as a graduate teaching reference books are also available for the scientific and technical personnel engaged in the work of Materials Research and Application Reference. Crystallography and material properties of Contents Chapter 1 1.1 crystal characteristics 1.2 chemically synthetic polymer 1.3 crystal structure of the crystal types 1.4 crystal defects 1.5...
